

Dysart consultants

Ben Murtagh, Archaeologist

Ivor MacElveen, Engineer

Activity Timeline to date

1992- Archaeological excavation with association with Berkeley

University California, Team leader Mark Hall in association with Ben Murtagh of the Irish team.

1993/2009- Ben Murtagh and team excavations supported by the Hibernia Academy.

1999- Comprehensive survey of structure by Phelim Manning.

2000- Structural report by David Kelly (Engineer)

2008- Propping of openings to stabilise the external fabric of the building, Grant assisted by Kilkenny county council. However the main structural problem, the vault was not carried out as this requires the involvement of a professional archaeologist. This is a serious priority, see the report of David Kelly and present Engineer Ivor MacElveen.
